## ABOUT US

The Los Angeles Academy of Figurative Art (LAAFA) was founded in 2002. LAAFA is known worldwide for providing exceptional art education and has built a strong reputation as a learning institution that provides high quality foundational training. LAAFA was recognized as one of the TOP 10 BEST ART SCHOOLS IN THE WORLD by American Artist magazine, a well-respected publication in the art world.

BERGAMOT STATION  
Santa Monica

In addition to classes and workshops held at Bergamot Station, LAAFA will hold open house events and lectures each quarter. This space will also function as a gallery to showcase the work of our instructors, students and alumni. Check our website regularly for up-to-date information on all the events happening or sign up online to receive our newsletters.

# INSTRUCTORS

LAAFA instructors represent an illustrious group of emerging, professional and accomplished talent. Each instructor has been specifically chosen because of their experience and the immense amount of knowledge they possess in their given disciplines. LAAFA is well known for our roster of master artists and major studio entertainment art professionals.

# LAAFA COMMUNITY

We strive to make a positive influence in our community by providing programs that educate and enrich all artists. Throughout the year we give back to our community by:

- Granting scholarships to those interested in pursuing art education
- Provide opportunities for high school students to take affordable art classes
- Offering work-study opportunities for students who need tuition assistance
- Donating our facilities to various organizations for educational & meeting purposes
- Providing complimentary LAAFA art events
